

DARREN CLARK B.Sc., M.Sc., FGS

Managing Director and Consultant Wellsite Geologist

DXC Geological Ltd, 17 Coate Close, Hemlington,

Middlesbrough, Cleveland, TS8 9RA.

Email: darren@dxcgeological.co.uk

Tel: 07884 333993

PROFILE

With well over 28 years in the oil and gas exploration industry I set up the business DXC Geological in July 2017 following a very successful 16 year career as a Wellsite Geologist at Barrel Consultants Limited. Prior to that I spent 6 years working as a Data Engineer and Mudlogger with Baker Hughes INTEQ in the UK North Sea and internationally in Holland and Namibia. I have extensive experience in the geological supervision of wells in the UK sector with numerous operators that are outlined in detail below. I have expertise in geosteered horizontal, deviated and extended reach wells and their associated formation evaluation techniques; I have an MSc in Engineering Geology, a BSc in Earth Science and I am a Fellow of the Geological Society of London and a member of the Petroleum Exploration Society of Great Britain. I am a very capable administrator and have experience with a number of industry software packages including Geologix GEO, RockWare WellCAD, HRH Gravitax and Winlog.

SKILLS

- Wellsite responsibility for all geological, data engineering and formation evaluation activity, supervision and reporting.
- Excellent knowledge of North Sea lithostratigraphy and highly experienced in exploration, appraisal and development wells in the Southern Gas Basin, Central & Viking Graben, Moray Firth and West of Shetlands.
- Experienced in geosteered horizontal drilling through complex channel sands with the use of ultra deep resistivity tools such as Schlumberger GeoSphere and Baker Hughes VisiTrak.
- Responsible for the selection of casing and coring points, XPT/MDT pressure and fluid sampling, sidewall core sampling points.
- Experienced in Formation Pressure Whilst Drilling (FPWD) techniques along with High Pressure / High Temperature (HPHT) knowledge and experience.
- Responsible for conducting regular communications with onshore Drilling Operation team and liaising with offshore Drilling Supervisor and rigsite contractors.
- Experienced in high angle extended reach (ERD) wells and their associated drilling techniques and formation evaluation.
- Ensuring geological well objectives are met and any geological risks are identified, evaluated, managed and risk assessed.
- Experienced in the use of oil based mud (OBM) and water based mud (WBM) systems.
- Responsible for cuttings and show descriptions and end of well sample distribution and dispatch.
- Experienced in conventional, aluminium and fibre-sleeved coring techniques, core handling and processing.
- Experienced in conventional and TLC wireline logging and MWD/LWD FE acquisition, witnessing and QC.
- Computer literate, including use of offshore communications, geological and engineering database packages, log drawing packages (Geologix GeoSuite, RockWare WellCAD, HRH Gravitax Winlog) and standard PC applications.
- Responsible for drafting wellsite geological Lithlog and proficient and very thorough in post well Composite well log and End of Well Report editing and preparation with a keen eye for detail.
- Experienced in the evaluation and management of contractors performance including periodic reviews.
- Confident in the use of the latest Heavy Mineral, Chemostratigraphy, Palynology and Biostratigraphy techniques.
- Participation in well planning, DWOP, hole section preview and review meetings, daily conference rig calls, daily pre-tour meetings and rig safety meetings.
- Participation in end of well review and wash-up meetings for lessons learned, highlights and lowlights for future well planning.
- Responsible for wellsite data management, quality control and archiving and the compilation of final well data sets and distribution.
- Excellent personal communications skills with firm professional confidence, diploma and highly team orientated

EMPLOYMENT HISTORY

DXC Geological Ltd	Director and Consultant Wellsite Geologist	Jan 2018 - Present
Barrel Consultants Ltd	Wellsite Geologist	Sep 2001 - Dec 2017
Baker Hughes INTEQ	Data Engineer / Logging Geologist	Feb 1995 - Sep 2001

INDUSTRY RELATED TRAINING

IWCF Level 1 Programme 2016
Sabre Panaseal FaceFit, June 2016
Compressed Air Emergency Breathing System (CA-EBS), August 2014
MIST Training, January 2023
Drilling and Advanced Rig Training (DART), October 2013
Merlin Extended Reach Drilling (ERD), October 2013
Operations & Wellsite Geology, Stag Geological Services, January 2001
Workplace Competency Assessor Course, D32/D33 S.Q.A., August 1998
DuPont Safety Training Observation Program (S.T.O.P) Course, April 1997
Baker Hughes INTEQ Pressure Evaluation Course, March 1997
BP Amoco HPHT Course, February 1997

EDUCATION

1992 – 1993

M.Sc Engineering Geology, Newcastle University

One year taught course including modules in the following;

Engineering Geology, Civil Engineering, Site Investigation, Hydrogeology, Soil Mechanics, Dam Engineering and Hydraulic Structures, Foundation Design and Construction.

Dissertation on 'Current Practice in the Laboratory Testing of Aggregates with Reference to the Whin Sill Dolerite of Northumberland'.

1989 – 1992

B.Sc Geology & Geography Earth Sciences, Anglia Ruskin University

Three year taught course in Geology and Geography Earth Sciences including modules in the following;

Igneous Petrology, Metamorphology, Sedimentology, Human and Physical Geography, Geographical Techniques, Theoretical and Applied Geomorphology, Palaeoenvironments, Geological Processes, Data Analysis and Processing, Resources, Stratigraphic Principles, Climatic Change, Plate Tectonics and Crustal Evolution.

Dissertation on 'The Petrography, Mineralogy and Geochemistry of the Great Whin Sill, Middleton-in-Teasdale, N.E. England'.

1981 – 1989

Sedgefield Community College & Sixth Form College

Advanced Level Geology, Geography and Art.

PERSONAL

British, 52 Years Old, Married, Excellent Health, UK Driving Licence, Vantage #: 0137858

INTERESTS & HOBBIES

I am a keen amateur photographer with my main interest being in wildlife and travel photography and I enjoy getting out in the fresh air on my Mountain Bike. I have a self-taught knowledge of web design that I use to produce the company website.

HEALTH & SAFETY CERTIFICATION

OGUK Further Offshore Emergency Training, Expires January 2027

OGUK Offshore Medical, Expires July 2025

OGUK Escape Chute Training, Expires September 2023

Covid-19 Triple Vaccinated, December 2021

PROFESSIONAL AFFILIATIONS

Geoscience Energy Society of Great Britain, Since 2001

Fellow Member, Geological Society of London, Since 1999
